

Roger Gonzalez Sedano

Date of birth: 01/05/2000 | Phone: (+34) 646008255 (Mobile) | Email address: rogonzalezse@gmail.com | Website: profile.rogsbox.com | Address: 16955, Solna, Sweden (Home)

Work experience

Research intern | KTH Royal Institute of Technology | 24/08/2024 - 31/05/2025 | Stockholm, Sweden

MSc degree project candidate and Erasmus exchange student in the Communication Systems Department, working on mathematical models of near-field 6G communications, with a focus on redefining the boundary conditions between the near field and far field.

Research intern | NaNoNetworking Center in Catalonia (N3Cat) | 01/09/2023 - 30/06/2024 | Barcelona, Spain

Antenna design and channel characterization for Wireless Network-on-Chip (WNoC) using full-wave simulators.

Hardware engineer intern | Idneo | 01/04/2022 - 30/07/2022 | Mollet del Valles, Spain

Automotive hardware design, analysis and testing.

Technical apprentice | Engi-on automatica | 01/07/2021 - 14/09/2021 | Mollet del Valles, Spain

Development of computer vision software for textile defect detection.

Education & Training

Master's degree in Advanced Telecommunication Technologies | Universitat Politècnica de Catalunya | 01/09/2023 - 22/06/2025 | Barcelona, Spain

A Master's focused on wireless communications and AI for multimedia processing.

Bachelor's degree in Telecommunications Technologies and Services Engineering | Universitat Politècnica de Catalunya | 01/09/2018 - 31/01/2023 | Barcelona, Spain

Major in telecommunications systems, with a focus on signal processing, electromagnetism and radiocommunications systems.

Thesis: Planar antenna design and channel modeling for chip-scale communications

Projects

4Forms - Service Forms Automation | Current

End-to-end platform that replaces paper service forms with a 1-minute workflow. Technicians log time, expenses and materials on-site, customers e-sign, and branded PDFs are emailed automatically. Deployed for a client to cut admin work, speed up billing, and improve client experience.

Namaqua Community Network - International cooperation project in rural Namibia | Current

Since March 2025, I have been volunteering on an international cooperation project in collaboration with Shoot4Change, Foundawtion, and AUCCOP. The project's objective is to establish a Community Network, replicating the Hahatay Community Network model, to provide connectivity and local services to the Namaqua Kalahari Children's Home in rural Namibia, which will host children at high risk of abuse and poverty.

Hahatay Community Network - International cooperation project in rural Senegal | Current

Since March 2022, I have been volunteering on an international cooperation project in collaboration with Hahatay's NGO and AUCCOP. The objective of the project is to establish a Community Network by employing 5G routers with OpenWRT's Open-Source firmware, and deploying a network control layer with OpenWisp and Zabbix Open-Source software to enable the inhabitants of Gandiol, Senegal, to connect to the internet and access private services, such as a self-hosted NextCloud server.

hahatay.network

Challenge Based Innovation participant | 10/01/2022 - 30/04/2022

A programme run by CERN, where I formed part of a multidisciplinary team with MBA and design students (from ESADE and IED, respectively) and developed a disruptive innovation project with social purpose related to air quality and sustainable mobility.
